Explains the development of 214 root pictographs, the classic key characters that are the base for all Chinese writing characters

This is the classic introduction to Chinese calligraphy. In nine richly illustrated chapters Chang explores the aesthetics and the technique of this art in which rhythm, line, and structure are perfectly embodied. He measure the slow change from pictograph to stroke to the style and shape of written characters by the great calligraphers. It is a superb appreciation of beauty in the movement of strokes and in the patterns of structure--and an inspiration to amateurs as well as professionals interested in the decorative arts.

Read Book Chinese Calligraphy From Pictograph To Ideogram The History Of 214 Essential Chinese Japanese Chara

Suitable for college and high school students and those learning on their own, this fully illustrated coursebook provides comprehensive instruction in the history and practical techniques of Chinese calligraphy. No previous knowledge of the language is required to follow the text or complete the lessons. The work covers three major areas: 1) descriptions of Chinese characters and their components, including stroke types, layout patterns, and indications of sound and meaning; 2) basic brush techniques; and 3) the social, cultural, historical, and philosophical underpinnings of Chinese calligraphy—all of which are crucial to understanding and appreciating this art form. Students practice brush writing as they progress from tracing to copying to free-hand writing. Model characters are marked to indicate meaning and stroke order, and well-known model phrases are shown in various script types, allowing students to practice different calligraphic styles. Beginners will find the author's advice on how to avoid common pitfalls in writing brush strokes invaluable. Chinese Writing and Calligraphy will be welcomed by both students and instructors in need of an accessible text on learning the fundamentals of the art of writing Chinese characters.

Explores the interplay of politics and the art of writing in China today to explain the complex relationship between tradition and modernity in Chinese culture.

A guide to learning Chinese calligraphy quickly shows readers how to learn the characters, presenting brush stroke technique in an accessible format while offering exercises and advice on how to stay motivated while learning this ancient art. Original.

Read Book Chinese Calligraphy From Pictograph To Ideogram The History Of 214 Essential Chinese Japanese Chara

Its history, techniques, aesthetics, and philosophy—with an in-depth practical guide to understanding and drawing 150 characters A guide to the history and enjoyment of Chinese and Japanese calligraphy that offers the possibility of appreciating it in a hands-on way—with step-by-step instructions for brushing 150 classic characters. This book is a comprehensive and accessible introduction to the history and art of calligraphy as it's been practiced for centuries in China, Japan, and elsewhere in Asia. It works as a guide for the beginner hoping to develop an appreciation for Asian calligraphy, for the person who wants to give calligraphy-creation a try, as well as for the expert or aficionado who just wants to browse through and exult in lovely examples. It covers the history and development of the art, then the author invites the reader to give it a try. The heart of the book, called "Master Samples and Study," presents 150 characters--from "action" to "zen"--each in a two-page spread. On each verso page the character is presented in three different styles, each one chosen for its beauty and identified by artist when possible. The character's meaning, pronunciation (in Chinese, Japanese, Korean, and Vietnamese), etymology, the pictograph from which it evolved, and other notes of interest are included. At the bottom of the page the stroke order is shown: the sequence of brush movements, numbered in their traditional order. On each facing recto page is Kaz's own interpretation of the character, full page.

This unusual and interesting book is a fascinating account of the world of Chinese writing. It examines Chinese space and the political and social use of writing as propaganda, a publicity booster and as a ladder for social climbing.

The bibliography offers information on research about writing and written language over the past 50 years. No comprehensive bibliography on this subject has been published since Sattler's (1935) handbook. With a selection of some 27,500 titles it covers the most important literature in all scientific fields relating to writing. Emphasis has been placed on the interdisciplinary organization of the bibliography, creating many points of common interest for literacy experts, educationalists, psychologists, sociologists, linguists, cultural anthropologists, and historians. The bibliography is organized in such a way as to provide the specialist as well as the researcher in neighboring disciplines with access to the relevant literature on writing in a given field. While necessarily selective, it also offers information on more specialized bibliographies. In addition, an overview of norms and standards concerning 'script and writing' will prove very useful for non-professional readers. It is, therefore, also of interest to the generally interested public as a reference work for the humanities.

This marvelous new book encourages natural prevention, treatment and healing. It is brilliant and comprehensive journal. The core focus of this most important volume is to liberate humankind from the pain and suffering of ill health. It is carefully written to guide men and women from all facets of society who are presently engaged in complementary medicine; freeing them from the limitations of synthetic and toxic applications of mainstream medical practice trends. Dr. Ubani's extensive knowledge and authentic expertise of natural medicine, homeopathy, African photo-medicine, nutrition and dietary therapy, is compounded in this spectacular revelation. These will educate the practitioners and laymen alike about the momentous necessity and importance of preventive therapy in our lives.

Read Book Chinese Calligraphy From Pictograph To Ideogram The History Of 214 Essential Chinese Japanese Chara

Chinese, one of the oldest active languages, evolved over 5,000 years. As such, it makes for a fascinating case study in the development of language. This cultural history of Chinese demonstrates that the language grew and responded to its music and visual expression in a manner very similar to contemporary English and other Western languages. Within Chinese cultural history lie the answers to numerous questions that have haunted scholars for decades: How does language relate to worldview? What would happen to law after its language loses absolute binding power? How do music, visual, and theatrical images influence literature? By presenting Chinese not as a system of signs but as the history of a community, this study shows how language has expanded the scope of Chinese imagination and offers a glimpse into the future of younger languages throughout the world.
