Autos and Progress reinterprets twentieth-century Brazilian history through automobiles, using them as a window for understanding the nation's struggle for modernity in the face of its massive geographical size, weak central government, and dependence on agricultural exports. Among the topics Wolfe touches upon are the first sports cars and elite consumerism; intellectuals' embrace of cars as the key for transformation and unification of Brazil; Henry Ford's building of a company town in the Brazilian jungle; the creation of a transportation infrastructure;

democratization and consumer culture; auto workers and their creation of a national political party; and the economic and environmental impact of autos on Brazil. This focus on Brazilians' fascination with automobiles and their reliance on auto production and consumption as keys to their economic and social transformation, explains how Brazil--which enshrined its belief in science and technology in its national slogan of Order and Progress--has differentiated itself from other Latin American nations. Autos and Progress engages key issues in Brazil around the meaning and role of race in society and also addresses several classic debates in Brazilian studies about the nature of Brazil's great size and diversity

"Paranormal thrills, a feisty middle-aged heroine, and a tantalizing mystery set in a creepy rest home . . . Clever, fast-paced, and fun." --Lisa Alber, author of *Kilmoon* and *Whispers in the Mist*.

A year's worth of vital industry data plus analysis that helps you plan for the future.

This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must

come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.

Focusing on the military institutions (army, militia,

and National Guard) of Bahia, Brazil, this book analyzes the region's transition from Portuguese colony to province of the Brazilian Empire. It examines the social, racial, and cultural dimensions of post-independence state-building in one of the principal slave plantation regions of the Americas. Contrary to those who stress the autonomy of the Brazilian state, this book documents the close connections between the locally-organized armed forces and society in the late colonial period. Racially segregated and mirroring the class hierarchies of the larger society, these military institutions were profoundly transformed by the war for independence in the early 1820s. In its aftermath, the new Brazilian

state gradually built a national army, breaking the local orientation of the Bahian regulars by the 1840s. The National Guard, locally-oriented and democratic in its 1831 organization, was turned into a state-controlled corporation in the 1840s. These developments deeply affected the lives of the men (and women) involved in the armed forces, and a main aim of this book is to examine their participation in the complex and convoluted process of state-building. The liberalism used to justify independence and the creation of an imperial state resonated among ordinary soldiers and officers, as it provided an ideology and language with which to challenge important features of late colonial military

organization such as racial segregation and corporal punishment. Racial discrimination, formally eliminated in the 1830s, shaped racial politics in the military, while the construction of a national army undermined the previously close connections of officers and soldiers to the mainstream of Bahian society.

For more than half a century, the Brazilian army used fear and censorship to erase aspects of its history from public memory and to create its own political myths. Although the military had remarkable success in promoting its version of events, recent democratization has allowed scholars access to new materials with which to challenge the "official story."

Drawing on oral histories, secret police documents, memoirs of dissident officers, army records, and other sources only recently made available, Shawn Smallman crafts a compelling, revisionist interpretation of Brazil's political history from 1889 to 1954. Smallman examines the topics the Brazilian military wished to obscure--racial politics and terror campaigns, institutional corruption and civil-military alliances, political torture and personal rivalries--to understand the army's growing involvement in civilian affairs. Among the myths he confronts are the military's idealized rendition of its racial policies and its portrayal of itself as above the corruption associated with politicians. His account not only

illuminates the origins of the military government's repressive and often brutal actions during the 1960s and 1970s but also carries implications for contemporary Brazil, as the armed forces debate their role in a democratic country.

Three men. 470 kilometres. Twenty-one days. Welcome to the Hezbollah Hiking Club . . . At a boozy, cricket-filled afternoon at Lord's, Dom Joly convinces his two closest friends to agree to the unthinkable: a challenging hike across Lebanon, from the Israeli border in the south, along the spine of the country's mountain range, all the way to the Syrian border in the north. For Joly it is something of a homecoming,

having grown up in Beirut. It was a happy childhood, though he did go to school with Osama bin Laden. Arriving in Lebanon armed with copious amounts of Vaseline - and no walking experience, bar taking the dog for the occasional stroll - Dom, Chris and Harry don't quite know what they've got themselves into. Joined by their bemused chaperone Caroll, they meet a variety of characters along the way including Ali, a stony-faced Hezbollah Museum guide who seems unperturbed by circling Israeli jets, and part-time Londoner Raf, who challenges Dom and the boys to a brain-freeze drinking contest. From a hair-raising creep along the 'Valley of the Skulls' to accidentally flashing an unsuspecting Ethiopian cook, the three

friends just about manage to keep going. With more than a smattering of persiflage and some cringe-worthy moments, The Hezbollah Hiking Club is a big-hearted, witty and affectionate love letter to Lebanon and its rich history with a meditation on family and homeland at its heart. Written with Dom's trademark humour, it is a paean to both the simple joys of friendship and to growing old disgracefully.
