Historian Romila Thapar That Demonstrates How Far The Ethnocentric Vision Of Indo-Roman History Has Shifted. The Intention Is To Open Up European Scholarship To Indian Scholars And Encourage The Ongoing Dialogue Between Scholars On Both Sides Of The Indian Ocean.

In ancient times there were several major trade routes that connected the Roman Empire to exotic lands in the distant East. Ancient sources reveal that after the Augustan conquest of Egypt, valued commodities from India, Arabia and China became increasingly available to Roman society. These sources describe how Roman traders went far beyond the frontiers of their Empire, travelling on overland journeys and maritime voyages to acquire the silk, spices and aromatics of the remote East. Records from ancient China, early India and a range of significant archaeological discoveries provide further evidence for these commercial contacts. Truly global in its scope, this study is the first comprehensive enquiry into the extent of this trade and its wider significance to the Roman world. It investigates the origins and development of Roman trade voyages across the Indian Ocean, considers the role of distant diplomacy and studies the organization of the overland trade networks that crossed the inner deserts of Arabia through the Incense Routes between the Yemeni Coast and ancient Palestine. It also considers the Silk Road that extended from Roman Syria across Iraq,

Access Free Crossings Early Mediterranean Contacts With India

through the Persian Empire into inner Asia and, ultimately, China.

This volume represents a multi-disciplinary effort to examine East Africa and the Western Indian Ocean. Multiple lines of evidence drawn from linguistics, archaeology, history, art history, and ethnography come together in novel ways to highlight different aspects of the region's past and offer innovative avenues for future research.

Recognising the fundamental role both of shipping communities and the technologies crafted and shared by them, this book explores the types of ships, methods of navigation and modes of water-borne trade in the Indian Ocean region and the way they affected the development of distinctive settlements against a changing but strong sense of regional consciousness and identity.

The contribution of Southeast Asia to the world economy (during the late prehistoric and early historic periods) has not received much attention. It has often been viewed as a region of peripheral entrepôts, especially in the early centuries of the current era. Recent archaeological evidence revealed the existence of established and productive polities in Southeast Asia in the early parts of the historic period and earlier. This book recalibrates these interactions of Southeast Asia with other parts of the world economy,

Access Free Crossings Early Mediterranean Contacts With India

and gives the region its due instead of treating it as little more than of marginal interest.

First Published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

This collection analyzes the affinities and interactions between Indic and Judaic civilizations from ancient to contemporary times. The contributors propose a new, global understanding of commerce and culture, to reconfigure how we understand the way great cultures interact, and present a new constellation of diplomacy, literature, and geopolitics.

How did Christianity make its remarkable voyage from the Roman Mediterranean to the Indian subcontinent? By examining the social networks that connected the ancient and late antique Mediterranean to the Indian Ocean, central Asia, and Iran, this book contemplates the social relations that made such movement possible. It also analyzes how the narrative tradition regarding the apostle Judas Thomas, which originated in Upper Mesopotamia and accredited him with evangelizing India, traveled among the social networks of an interconnected late antique world. In this way, the book probes how the Thomas narrative shaped Mediterranean Christian beliefs regarding co-religionists

Access Free Crossings Early Mediterranean Contacts With India

in central Asia and India, impacted local Christian cultures, took shape in a variety of languages, and experienced transformation as it traveled from the Mediterranean to India, and back again.

Across the Ocean contains nine essays, each dedicated to a key question in the history of the trade relations between the Mediterranean and the Indian Ocean from Antiquity to the Early Modern period: the role of the state in the Red Sea trade, Roman policy in the Red Sea, the function of Trajan's Canal, the pepper trade, the pearl trade, the Nabataean middlemen, the use of gold in ancient India, the constant renewal of the Indian Ocean ports of trade, and the rise and demise of the VOC.

This book is a detailed account of the multifaceted history of the Deccan. Beginning with its historical foundations it goes on to delineate how it is the key to understanding its social, economic, political and ideological evolution. Containing nine essays, this volume attempts to look at regional history from the perspective of given localities that provides the many facets of early Deccani society and culture. Hitherto, this was mainly articulated in terms of the broad categories of language and religion in the many historical studies of present-day linguistic states. In focussing on local spatial contexts as the primary

Access Free Crossings Early Mediterranean Contacts With India

layer of historical reality, the book has relied on multiple sources of information, largely extant archaeological material while also drawing information from inscriptions, textual material and oral memory. The book also reflects on the important events of various periods by placing them as part of larger social and economic processes emanating from the local. The essays in this collection have been presented thematically moving from general issues discussed in Part I to the more particular in Part II and finally, to reflect on the multiplicity and simultaneity of different kinds of processes in a constant state of negotiation, in Part III. The historical sensibilities of people in various locations right from Kotalingala and Dhulikatta to Phanigiri, Patancheru, Kondapur and Nanakramguda and from Thotlakonda to Nagarjunakonda, Amaravati, Vaddamanu and Shravan Belgola have been recounted. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.
