Don Quixote Short Story is one of five short stories extracted from our book called 'Ballet Stories For Kids: Five Of The Most Magical, Well Loved, World Famous Ballets, Specially Chosen and Adapted Into Children's Stories.' This story can be read on its own, or you might want to buy another story, or the whole book of five stories, in e-book or paperback book form. You should be able to find it alongside our other books.

The ballet Don Quixote, with music by Ludwig Minkus and scenario and original choreography by Marius Petipa, is one of the most enduring creations to have emerged from the flowering of the ballet in late 19th-century Russia. Still popular, it has become a standard repertory piece in ballet companies all over the world. The work was first performed in Moscow at the Bolshoi Theater on 14/26 December 1869. The plot, in four acts and eight scenes, was based on an episode which Petipa had developed from the second part of Cervantes's novel, relating the love story of Quiteria (known as Kitri in the ballet) and Basilio. Petipa devised the original version to suit the unsophisticated taste of Moscow's audiences. Soon after, he prepared a version for St Petersburg, using the same music and designs, but with major choreographic revisions. This St Petersburg version, premiered on 9/21 November 1871, was in five acts (eleven episodes, a prologue and an epilogue). It took into account the Imperial capital's preference for a more classical interpretation of the ballet and amounted to a new and very different version. Alexander Gorsky staged his Moscow revival of Don Quixote in 1900 using Petipa's St Petersburg scenario and some of his choreography, and reducing the work to four acts. Two years later, in 1902, the director of the Imperial Theatres, Vladimir Teliakovsky, invited Gorsky to restage an updated version of Don Quixote at the Maryinsky Theatre in St Petersburg. The ballet became a staple of the repertoires of the Moscow Bolshoi Ballet and the Leningrad Kirov Ballet and was regularly modified as it was continually restaged, ending up as three acts with a prologue and six scenes. This version of the score, containing several interpolated pieces by other repertory dance composers, is the standard performing edition used in Russia. Don Quixote was first seen outside of Russia in an edited two-act version danced by Pavlova and her company in England in 1924. The first time the full work was staged for a Western company was by the English Ballet Rambert in 1962, by Witold Borowski. Notable productions outside of Russia to Minkus's music were those by Rudolf Nureyev for the Vienna State Opera (1966), and Mikhail Baryshnikov for American Ballet Theatre (1978), which for the most part followed the traditional versions they had performed in Russia. Another major source of publicity for the ballet came in 1976 when the iceskater John Curry's inspired routine to music from the ballet won him a gold medal at the European Figure Skating Championship, the World Figure Skating Championship and the Winter Olympics. No standard editions of Minkus's scores have ever been produced, and no full score of Don Quixote has been published. Every ballet company usually comes up with its own arrangements of his music, the revisions by John Lanchbery being the most widely known. Lanchbery's work, however, tampers with both the orchestration and, more seriously, the harmony, of Minkus's music, and is often closer to a rewriting than an arrangement. The resurgent popularity of Minkus's Don Quixote and La Bayadère, as well as his additions to Deldevez's Paquita, have revealed the innate skill and charm of his music, despite the ubiquity of the arrangements and distortions of his scores. Minkus's writing, like so much Romantic ballet, is closely allied to operatic conventions, with arias, duets and ensembles that are enacted rather than sung, and with each ballet sustaining its own special atmosphere. The Town Square, Gypsy Camp and Dream Sequence in Don Quixote are full of musical buoyancy and melodic verve, demonstrating a careful use of tonality and dramatic style. The famous Grand Pas de Deux from the finale "is lively, well-crafted and ablaze with attractive invention" (Ian Woodward). Until such times as a definitive version of the manuscript score can be established, this performing edition as used in Russia acknowledges the living tradition of this work, and the vibrancy of Minkus's splendid music.

In 1868 the choreographer Marius Petipa planned his ballet Don Quixote for the Bolshoi Theatre in Moscow, and the Austrian composer Ludwig Minkus was invited to compose the music. The plot of Don Quixote was based on the adventures of Quiteria (known as Kitri in the ballet) and Basilio, which Petipa had developed from the second part of Miquel de Cervantes's novel (1605). The ballet was an enormous success, both in Moscow (14/26 December 1869) and in St Petersburg where it was represented at the Bolshoi Theatre on 9/21 November 1871 in an expanded version as Don Quichotte—with revised scenario and choreography that took cognizance of the more sophisticated expectations of the Imperial capital. Changes were made to the story, with a new fifth act in three scenes, for which Minkus wrote additional music. Don Quixote no longer regarded Kitri simply as his protégée, but now actually mistakes her for Dulcinea, and she appears as such in his Dream Scene. Provision was made for one ballerina to perform the double virtuosuo role of Kitri and Dulcinea. The big classical scene for Don Quixote's dream was rewritten. Greater emphasis was now placed on this episode, where Kitri/Dulcinea was surrounded by a large corps de ballet and seventy-two children dressed as cupids, Alexandra Vergina was partnered by Basilio (Lev Ivanov), and supported by Pavel Gerdt in the last scene. The cast also included Timofei Stukolkine (Don Quixote), Nicholas Goltz (Gamache), and Alexei Bogdanov (Lorenzo). Don Quixote became established in the repertory, and its continued life on the Russian stage bears testimony to the appeal of its exuberance, "the life-asserting and life-loving nature of its dances" (Natalia Roslavleva). Generations of Russian ballet-masters and dancers preserved these dances in essence, and the ballet is still part of the Russian repertory, given today in all Russian and Siberian companies. In the Moscow version of Alexander Gorsky, in three acts and seven or eight scenes, Petipa's version of Don Quixote, with its life-affirming music by Minkus, has during the 20th century spread throughout the world, not least because of the work of Rudolf Nureyev who made a film version of the Australian Ballet production in 1971 that became very famous. It co-starred Robert Helpmann and Lucette Aldous, and made world history in being the first ballet to be produced with full film technique, so providing wider scope for imaginative handling of the famous story. Don Quixote has become the standard ballet version of the Cervantes tale, and one of the most popular pieces of the international repertory. Much of its emotional fervour is captured in the celebrated virtuoso Grand Pas de Deux for the wedding of Kitri and Basilio in the last scene. This piece, with a spectrum of feeling enshrined in its rapturous melodies and irresistible rhythmic élan, has assumed a life of its own as a concert piece in countless renditions wherever ballet is performed. The piano score of the St Petersburg version was published as Don Quichotte (St Petersburg: Theodore Stellovsky, c. 1882). This version is reproduced here.

The composer Ludwig Minkus represents one of music's biggest mysteries. Who was he? Hardly anything is known about him, and yet he occupied an influential position in the theatres of the Imperial ballet in late nineteenth-century Russia. He has been recognised as a predecessor of Tchaikovsky, but as a musician is commonly held to have been so feeble as to be beneath contempt. Yet despite the scorn heaped on him, and his consequent obscurity, Minkus is far from being forgotten. Since the early 1960s his name has slowly begun to re-surface. Two works, Don Quixote (1869) and La Bayadère (1877), have been presented in their entirety for the first time to new audiences all over the world. The musical and dramatic power of both ballets has taken people by surprise. The stories have a very real human appeal, the choreography attracts the admiration of balletomanes, and the music, with its rhythm, verve, and beauty of melody, holds attention and engages the heart wherever it is heard. This introduction seeks to discover something more behind the blank façade of Minkus's life and work. What do we actually know about him as a man and as an artist? Are we able to apprehend his oeuvre as a whole, and how much can we establish from the available material? What is the nature of the music he created for those few works that have survived the years, and that have come to the fore again recently to delight those who have ears to hear? This study includes iconography from the life and times of the composer, many musical examples from his works, and a comprehensive bibliography and discography.
