A book like no other book ever written about the U.S. Constitution and the Bill of Rights. Some of the most priceless constitutional gems are found in these pages. "What You Should Know About the United States Constitution" is a telling blow to those enemies of this nation who are seeking to destroy our Republic. "Knowledge is power" which the book provides in full measure, enabling every citizen to understand and defend the United States against enemies, external and internal.

The chapter on covert actions throws new light on the murder of Martin Luther King, Pope John Paul 1, and other notables marked for elimination. The bloodshed that resulted from the creation of an artificial "Saudi Arabia;" the foreign policy making role of the petroleum industry; the rape of Mexico by British and American oil barons; the revolutions they ignited which cost thousands upon thousands of lives; British conquest of India, the pernicious Indian "apartheid" caste system. These are some of the subjects dealt with in this historic

expose of how our governments deceive us under the color of diplomacy. "Diplomacy By Deception" tells us that the United Nations is a war-making body, not a peace-keeping organization, and how the Rockefeller and Alger Hiss, aided by the top Illuminati Dulles family, got the United States involved with the United Nations. There is a masterly analysis of constitutional roadblocks barring U.S. membership of the United Nations that will come as a surprise and leave no doubt that we are not now, nor can we ever be, a member of the United Nations. "Diplomacy By Deception" will forever alter your perception of the two leading governments in Western civilization. This is an

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

The real story behind the Tavistock Institute and its network, from a popular

conspiracy expert The Tavistock Institute, in Sussex, England, describes itself as a nonprofit charity that applies social science to contemporary issues and problems. But this book posits that it is the world's center for mass brainwashing and social engineering activities. It grew from a somewhat crude beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet, and in the process, change the paradigm of modern society. In this eye-opening work, both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered. With connections to U.S. research institutes, think tanks, and the drug industry, the

Tavistock has a large reach, and Tavistock Institute attempts to show that the conspiracy is real, who is behind it, what its final long term objectives are, and how we the people can stop them.

In the corridors of the Vatican on the eve of World War II, American Catholic priest Joseph Patrick Hurley found himself in the midst of secret diplomatic dealings and intense debate. Hurleys deeply felt American patriotism and fixed ideas about confronting Nazism directly led to a mighty clash with Pope Pius XII. It was 1939, the earliest days of Pius's papacy, and controversy within the Vatican over policy toward Nazi Germany was already heated. This groundbreaking book is both a

biography of Joseph Hurley, the first American to achieve the rank of nuncio, or Vatican ambassador, and an insiders view of the alleged silence of the pope on the Holocaust and Nazism. Drawing on Hurleys unpublished archives, the book documents critical debates in Pope Pius's Vatican, secret U.S.-Vatican dealings, the influence of Detroit's flamboyant anti-Semitic priest Charles E. Coughlin, and the controversial case of Croatia's Cardinal Stepinac. The book also sheds light on the powerful connections between religion and politics in the twentieth century.

This work argues for the existence of a committee of 300, an elite body which controls every

Journeying through Saudi Arabia, Iraq, Iran, Afghanistan, and Pakistan, Coleman introduces the reader to influential Islamic feminist thinkers and successful grassroots activists working to create economic, political, and educational opportunities for women. Their advocacy for women ' s rights based on more progressive interpretations of Islam are critical to bridging the conflict between those championing reform and those seeking to oppress women in the name of religious tradition. Socially, culturally, economically, and politically, the future of the region depends on finding ways to accommodate human rights, and in particular women ' s rights, with Islamic law.
