I came to Eastern Approaches by way of a glowing testimonial in Peter Hopkirk's The Great Game (see my review elsewhere). The front cover calls Maclean's memoir "The best book you will read this year" and for once a clever line in a blurb is hard to challenge. Eastern Approaches will linger in the memory for many a year.

Eastern Approaches is a memoir of the early career of Fitzroy Maclean. It is divided into three parts: his life as a junior diplomat in Moscow and his travels in the Soviet Union, especially the forbidden zones of Central Asia; his exploits in the British Army and SAS in the North Africa theatre of war; and his time with Josip Broz Tito and the Partisans in Yugoslavia. Maclean was considered to be one of the inspirations for James Bond, and this book contains many of the elements: remote travel,

Fitzroy Maclean was one of the real-life inspirations for super-spy James Bond. After adventures in Soviet Russia before the war, Maclean fought with the SAS in North Africa in 1942. There he specialised in hair-raising commando raids behind enemy lines, including the daring and outrageous kidnapping of the German Consul in Axis-controlled Iraq. Maclean's extraordinary adventures in the Western Desert and

later fighting alongside Tito's partisans in Yugoslavia are blistering reading and show what it took to be a British hero who broke the mould . . .

Reginald Jones was nothing less than a genius. And his appointment to the Intelligence Section of Britain's Air Ministry in 1939 led to some of the most astonishing scientific and technological breakthroughs of the Second World War. In *Most Secret War* he details how Britain stealthily stole the war from under the Germans' noses by outsmarting their intelligence at every turn. He tells of the 'battle of the beams'; detecting and defeating flying bombs; using chaff to confuse radar; and many other ingenious ideas and devices. Jones was the man with the plan to save Britain and his story makes for riveting reading.

As heard on the New Yorker Radio Hour: The triumphant and "engaging history" (The New Yorker) of the young women who devised a winning strategy that defeated Nazi U-boats and delivered a decisive victory in the Battle of the Atlantic. By 1941, Winston Churchill had come to believe that the outcome of World War II rested on the battle for the Atlantic. A grand strategy game was devised by Captain Gilbert Roberts and a group of ten Wrens (members of the Women's Royal Naval Service) assigned to his team in an attempt to reveal the tactics behind the vicious success of the German U-boats. Played on a linoleum floor divided into painted squares, it required model ships to be moved across a make-believe ocean in a manner reminiscent of the childhood game, Battleship. Through play, the designers developed "Operation Raspberry," a counter-maneuver that helped turn the tide of World War II. Combining vibrant novelistic storytelling with extensive research, interviews, and previously unpublished accounts, Simon Parkin describes for the first time the role that women played in developing the Allied strategy that, in the words of one admiral, "contributed in no small measure to the final defeat of Germany." Rich with unforgettable cinematic detail and larger-than-life characters, *A Game of Birds and Wolves* is a heart-wrenching tale of ingenuity, dedication, perseverance, and love, bringing to life the imagination and sacrifice required to defeat the Nazis at sea.

A Penguin Classic "Age can never dull this kind of writing," writes the Chicago Tribune of John Steinbeck's dispatches from World War II, filed for the New York Herald Tribune in 1943, which vividly captured the human side of war. Writing from England in the midst of the London blitz, North Africa, and Italy, Steinbeck focuses on the people as opposed to the battles, portraying everyone from the guys in the bomber crew to Bob Hope on his USO tour. He eats and drinks with soldiers behind enemy lines, talks with them, and fights beside them. First published in book form in 1958, these writings, now with a new introduction by Mark Bowden, create an unforgettable portrait of life in wartime that continues to

Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times' Ten Best Books of the Year “Impressive . . . Mr. Judt writes with enormous authority.” –The Wall Street Journal “Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history.” –The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. Postwar is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, Postwar is a rare joy. Judt's book, *Ill Fares the Land*, republished in 2021 featuring a new preface by bestselling author of *Between the World and Me* and *The Water Dancer*, Ta-Nehisi Coates.

On the 28th May, 1943, the author of this book was parachuted, together with Captain Stuart and a small party, to the highlands of Montenegro. These two officers commanded the first British military mission to Tito's headquarters. They landed unawares in the middle of the most critical Axis operation as yet mounted against the Yugoslav partisan movement, whose main forces of four divisions, lightly armed and burdened with three thousand wounded, were encircled on the 'Embattled Mountain' of Durmitor – the symbol of this book – by double their number, headed by German mountain and SS troops, supported by artillery and aircraft. This account of the breaking of the enemy ring is a classic study in partisan war. 'The republication of *The Embattled Mountain* is both welcome and timely. It is welcome because this remains, four decades on, a compelling and important book. It is not only a classic war memoir in the inimitable British tradition – alternately exciting, moving, funny, understated and poetic – but it is also an important historical study of anti-Axis resistance in Yugoslavia during the Second World War and of Britain's engagement with and changing policies towards that resistance.' Mark Wheeler, Professor of History and International Relations at the Sarajevo School of Science and Technology

Now in paperback! From the award-winning author of *Babe: The Gallant Pig* comes the story of how the Loch Ness monster finds his home, thanks to the human family that raises him.

A picaresque series of tales about an ordinary man's successful quest to survive, and a funny but unrelentingly savage assault on the very idea of bureaucratic officialdom as a human enterprise conferring benefits on those who live under its control, and on the various justifications bureaucracies

offer for their own existence.

From bestselling author David Nasaw, a sweeping new history of the one million refugees left behind in Germany after WWII. In May 1945, after German forces surrendered to the Allied powers, millions of concentration camp survivors, POWs, slave laborers, political prisoners, and Nazi collaborators were left behind in Germany, a nation in ruins. British and American soldiers attempted to repatriate the refugees, but more than a million displaced persons remained in Germany: Jews, Poles, Estonians, Latvians, Lithuanians, Ukrainians, and other Eastern Europeans who refused to go home or had no homes to return to. Most would eventually be resettled in lands suffering from postwar labor shortages, but no nation, including the United States, was willing to accept more than a handful of the 200,000 to 250,000 Jewish men, women, and children who remained trapped in Germany. When in June, 1948, the United States Congress passed legislation permitting the immigration of displaced persons, visas were granted to sizable numbers of war criminals and Nazi collaborators, but denied to 90% of the Jewish displaced persons. A masterwork from acclaimed historian David Nasaw, *The Last Million* tells the gripping but until now hidden story of postwar displacement and statelessness and of the Last Million, as they crossed from a broken past into an unknowable future, carrying with them their wounds, their fears, their hope, and their secrets. Here for the first time, Nasaw illuminates their incredible history and shows us how it is our history as well.

From the critically acclaimed author of *The 25th Hour* and *When the Nines Roll Over* and co-creator of the HBO series *Game of Thrones*, a captivating novel about war, courage, survival – and a remarkable friendship that ripples across a lifetime. During the Nazis' brutal siege of Leningrad, Lev Beniov is arrested for looting and thrown into the same cell as a handsome deserter named Kolya. Instead of being executed, Lev and Kolya are given a shot at saving their own lives by complying with an outrageous directive: secure a dozen eggs for a powerful Soviet colonel to use in his daughter's wedding cake. In a city cut off from all supplies and suffering unbelievable deprivation, Lev and Kolya embark on a hunt through the dire lawlessness of Leningrad and behind enemy lines to find the impossible. By turns insightful and funny, thrilling and terrifying, the New York Times bestseller *City of Thieves* is a gripping, cinematic World War II adventure and an intimate coming-of-age story with an utterly contemporary feel for how boys become men.
