Place your mouth over the mouth and nose of the infant and blow steadily and firmly into their mouth, checking that their chest rises. Give 5 initial rescue breaths. Place 2 fingers in the middle of the chest and push down by 4cm (about 1.5 inches), which is approximately one-third of the chest diameter.

First aid - CPR - NHS

CPR stands for cardiopulmonary resuscitation. It combines chest compressions and rescue breaths to give a person the best chance of survival following a cardiac arrest. We've updated our guidance due to the COVID-19 outbreak. Do not perform rescue breaths on the casualty. If an adult is unresponsive and not breathing normally, you still need to call 999 or 112 for emergency help and start CPR straight away.

How to do CPR on an adult | St John Ambulance

CPR is a first aid technique that's closely associated with the ABCs. It consists of giving cycles of chest compressions and rescue breaths. In addition to scenarios that involve no breathing or...

ABC First Aid: Rules for CPR and Other First Aid Situations

First aid providers have resumed first aid training and assessment. In some cases, there remains a back log or limited availability. FAW or EFAW certificates that expired after 16 March 2020 can remain valid until 31 October 2020 or 6 months from date of expiry, whichever is later.

First aid during the coronavirus (COVID-19) pandemic - HSE ...

The aims of first aid are to preserve life, prevent harm, and promote recovery. In first aid, ABC stands for airway, breathing, and circulation. The recovery position helps minimize further injury...

First aid: Skills, recovery position, and CPR

This course is ideal for people who require the skills to resuscitate unresponsive casualties but are not required to have a Health and Safety Executive-approved first aid qualification. Candidates need a basic command of English (defined as Level 2). While we are often able to provide support to people who do not have English as a first language, our ability to do so is limited by the time available and the number of people who require assistance.
