Modern culture's worship of "how-to" pragmatism has turned us into instruments of efficiency and commerce—but we're doing more and more about things that mean less and less. We constantly ask

“how? and still struggle to find purpose and act on what matters. Instead of acting on what we know to be of importance, we wait for bosses to change, we seek the latest fad, we invest in one more degree. Asking how keeps us safe—instead of being led by our hearts into uncharted territory, we keep our heads down and stick to the rules. But we are gaining the world and losing our souls. Peter Block puts the “how-to” craze in perspective and presents a guide to the difficult and life-granting journey of bringing what we know is of personal value into an indifferent or even hostile corporate and cultural landscape. He raises our awareness of the trade-offs we’ve made in the name of practicality and expediency, and offers hope for a way of life in which we’re motivated not by what “works,” but by the things that truly matter in life—idealism, intimacy, depth and engagement.

" We need our neighbors and community to stay healthy, produce jobs, raise our children, and care for those on the margin. Institutions and professional services have reached their limit of their ability to help us. The consumer society tells us that we are insufficient and that we must purchase what we need from specialists and systems outside the community. We have become consumers and clients, not citizens and neighbors. John McKnight and Peter Block show that we have the capacity to find real and sustainable satisfaction right in our neighborhood and community. This book reports on voluntary, self-organizing structures that focus on gifts and value hospitality, the welcoming of strangers. It shows how to reweave our social fabric, especially in our neighborhoods. In this way we collectively have enough to create a future that works for all. "

"The Other Kingdom is about reframing how society views its communal identity. The book proposes to identify what has been considered sacred language and use it as an opening into the experience of

community and the commons. It lays out a faith narrative without the negative traces of sectarianism. Readers are dared to imagine the human benefit of an alternative to the market ideology that defines our culture, called the Neighborly Covenant because it enlivens and humanizes the social order. The Other Kingdom proposes language for alternative ways to a covenantal culture, one that is active beyond election years and has different substance in defining society's communal identity"--

This book provides a thorough examination of a variety of specialties within the broad range of management consulting. A book of such scope and depth could only be written by a large number of experts, each from one of the many specialties related to management consulting. Together, all 27 contributors take the reader through an industry that is currently undergoing significant change. While covering all the major practice areas of consulting, the book also offers new insights into change processes and addresses compelling management issues now facing consulting firms.

Digital version of the book of the same title. Offers search capability, notes option, and bookmark feature.
