This funny book is about freedom, creativity, the Internet and the new world of work. This is a very fast read of about 120 pages with many drawings (which some are a little strange, but art is art). Nonetheless, it is an interesting read, particularly if you are blogging or have interests in new media.

This is a book about freedom. Specifically the personal freedom I discovered from the wonderful world of blogging, the freedom I hope everybody will eventually discover for themselves. The freedom that, I believe, will permanently and irrevocably change the world for the better. Having a blog, a voice, having my own media, utterly changed my life. Suddenly my career as a cartoonist wasn't dependent on other people: "The Gatekeepers"-publishers, editors, Hollywood executives, etc., etc. Suddenly I had direct contact with my audience. They had direct contact with me. I could just do my thing, without having to wait for somebody else to give me the "green light." I didn't have to wait around for somebody else to deem me "worthy." This was the freedom I spent most of my adult life searching for, the same freedom I believe we're ALL searching for, in one way or another. Careerwise, blogging gave me everything. Even in the early days, the benefits of blogging were so glaringly obvious to me, I couldn't understand why more people weren't doing it. Ten years later, I still can't. So I decided to write a book about it; maybe I can help other people find this freedom, too. -Hugh

A housewife was searching opportunity how to earn from the internet without any investment. After a long researched I motivated from some successful blogger has started to write this book. Day by day number of unemployment is increasing in every country. Conventional school and college education are failing to provide empowerment, resulting we become vagabond with our prestigious degree without any skill. The youth of every country is become insupportable by the parents. They are depressed due to unemployment. Even those who are employed are unable to fulfill the expectations of family members. They have posses the basic knowledge of computer and internet. They have listened to the online earning. But not getting the exact idea how to start. Half portion of population ie women are compelled to confined in the house due to various reasons. I wish to give them an idea how can start earn online money from home by using the internet. My thirsty mind will be filled with every drop of your success if you get financial freedom. Let start a new journey, a step towards financial freedom through online blogging and affiliate marketing

In the wake of labor market deregulation during the 2000s, online content sharing and social networking platforms were promoted in Japan as new sites of work that were accessible to anyone. Enticed by the chance to build personally fulfilling careers, many young women entered Japan's digital economy by performing unpaid labor as photographers, net idols, bloggers, online traders, and cell phone novelists. While some women leveraged digital technology to create successful careers, most did not. In Invisibility by Design Gabriella Lukács traces how these women's unpaid labor became the engine of Japan's digital economy. Drawing on interviews with young women who strove to sculpt careers in the digital economy, Lukács shows how platform owners tapped unpaid labor to create innovative profit-generating practices without employing workers, thereby rendering women's labor invisible. By drawing out the ways in which labor precarity generates a demand for feminized affective labor, Lukács underscores the fallacy of the digital economy as a more democratic, egalitarian, and inclusive mode of production.

Each of us is, to some extent or other, a reflection of the experiences of our lives. However, whether and how we succeed is determined at least in part by how we cope with those experiences and what we learn from them. This is the story of a man who, despite a difficult family life and professional setbacks, developed the determination, drive and skills to create a successful business and happy life. Geoff's skills and self-motivation gave him the drive, determination and tenacity to continue a journey through hardship to reach self-fulfillment and, ultimately, success. His book describes the life journey of a young man's heart and his desire to turn his dreams and vision into a business success. Freedom After The Sharks shows how, even in a declining economy, a business can survive and even succeed. It covers some real-life experiences and offers some suggestions for dealing with problems and issues. It provides a guide to finding your way in the business world. The book is suitable for entrepreneurs who might not be sure of the path to take or who want to benefit from other people's mistakes and failures. Other audiences include middle management or junior executives who are looking for a fascinating life story of courage, drive and inspiration, as well as graduates and college students, who will find information that will help prepare them for their careers.
