The description is written in such a way that anyone reading the objective will most likely interpret it the same way. To ensure that an objective is specific is to make sure that the way it is described is observable. Observable means that somebody can see or hear (physically observe) someone doing something.

SMART objectives Free Essay Example - StudyMoose

Objective data is observable and measurable and can be obtained through vital signs, physical examination, and laboratory/diagnostic testing. There's not much room for debate with objective data. Palpating a radial pulse of 90 is objective. Checking a patient's CBC count and seeing that their white blood cells are 20,000 is objective. Taking your patient to a ct scan of the brain and seeing an occipital lobe infarct...that is objective.
