This new edition has been extensively updated to reflect developments in Georgia politics and government since 2007—a decade that has seen three presidential election cycles, two midterm elections, and a census. Updates reflect not only changes in how Georgia is governed but also the economic and social trends helping to drive those changes. These include the continued growth and dispersal of His panic and Asian populations; the decline, by a variety of measures, of rural areas; and the moderating effect of probusiness government factions on social conservative agendas. This edition maintains the book's comparative approach, which examines the state from three revealing perspectives. This allows readers to determine the extent to which Georgia is similar to its peers on such topics as the length and features of the constitution, the organization of the state government, and the nature of policies. All this allows students and scholars to have a better understanding of the political and economic dynamics of Georgia and the relationship of those dynamics to national political and economic developments. The result is a thorough, up-to-date resource on Georgia's dynamic political system. Features: -Coverage of trends and events since the prior edition appeared in 2007 -Analysis of the most recent state elections -A rewritten chapter on the judiciary that reflects greater representation of women and minorities on the bench and a sharp rise in Republican appointees -A rewritten chapter on policy, with added detail on such topics as transportation, the environment, education, social welfare, and public safety and security -Extensive revisions to sections on the U.S. Constitution -The removal of a chapter on public opinion so that its contents can be more tightly woven throughout the book -Greater attention to the increased power of interest groups -Acknowledgment throughout of the impact of the web and social media in politics and government

Directors in the Children's Advocacy Centers of Georgia state network of CACs have collaborated on a book certain to provide words of future hope and healing for the courageous children who have been victims of childhood sexual abuse, physical abuse, neglect, or exploitation. Indeed, anyone who has experienced a traumatic event, or have been the loved one of such a person, will find value and meaning to the thoughts and messages inside this book. Our mission is to be, now and always, for the children. \_\_\_\_\_ ¶People who work at Children's Advocacy Centers go to work not just for a job, but in commitment to an important cause. Ultimately, their response and involvement with a child who has alleged child abuse and the child's family, while significant, is relatively brief considering the future lifetime of a child. However, this can be a critical pivot point for everyone involved. With this book, the Children's Advocacy Centers of Georgia, through the amazing words of the Executive Directors of Georgia's CACs, seek to expand their positive influence beyond the immediate needs of child survivors of abuse and their families. The words in this book are parting gifts for the children and families who are served in Children's Advocacy Centers, for them to read and contemplate, and then re-read, in their own individual journeys toward health and healing! (Chris Newlin, MS LPC, executive director, National Children's Advocacy Center, Huntsville, Alabama).
