What if you could become a powerful force for good in the world without moving overseas, burdening your overwhelmed family, or giving up the comforts of modern life? Chris Marlow, founder of the global advocacy organization Help One Now, once felt paralyzed in the face of global problems. They seemed too numerous, too complicated, too big—and after all, how much can one person really do? But a wake-up call in Zimbabwe and a closer study of Scripture soon showed Chris that maybe Christians are overcomplicating how to do act justly in a broken world. Maybe all God is calling us to do is set up a lemonade stand for a good cause. Doing Good is Simple is your practical guide to world change wherever you are. Through Chris ’ own journey of an ordinary person seeking God ’ s good in the world, this book will: Empower you to make a difference where you are Redefine good according to God ’ s metrics of small, simple things with great love Bring global concepts down to earth for you to find your place in the area where God is calling you Disband the top myths we tell ourselves when it comes to world change and why we aren ’ t “ enough ” Free you from your first world guilt complex that drags you down Provide practical, accessible guidelines for getting started today

It has become common knowledge that childhood obesity rates are increasing every year. But the rates continue to rise. And between busy work schedules and the inconvenient truth that kids simply refuse to eat vegetables and other healthy foods, how can average parents ensure their kids are getting the proper nutrition and avoiding bad eating habits? As a mother of three, Jessica Seinfeld can speak for all parents who struggle to feed their kids right and deal nightly with dinnertime fiascos. As she wages a personal war against sugars, packaged foods, and other nutritional saboteurs, she offers appetizing alternatives for parents who find themselves succumbing to the fastest and easiest (and least healthy) choices available to them. Her modus operandi? Her book is filled with traditional recipes that kids love, except they're stealthily packed with veggies hidden in them so kids don't even know! With the help of a nutritionist and a professional chef, Seinfeld has developed a month's worth of meals for kids of all ages that includes, for example, pureed cauliflower in mac and cheese, and kale in spaghetti and meatballs. She also provides revealing and humorous personal anecdotes, tear-out shopping guides to help parents zoom through the supermarket, and tips on how to deal with the kid that "must have" the latest sugar bomb cereal. But this book also contains much more than recipes and tips. By solving problems on a practical level for parents, Seinfeld addresses the big picture issues that surround childhood obesity and its long-term (and ruinous) effects on the body. With the help of a prominent nutritionist, her book provides parents with an arsenal of information related to kids' nutrition so parents understand why it's important to throw in a little avocado puree into their quesadillas. She discusses the critical importance of portion size, and the specific elements kids simply must have (as opposed to adults) in order to flourish now and in the future: protein, calcium, vitamins, and Omega 3 and 6 fats. Jessica Seinfeld's book is practical, easy-to-read, and a godsend for any parent that wants their kids to be healthy for a long time to come.

The follow-up to the #1 New York Times bestseller Deceptively Delicious goes beyond purees and kids' foods to make family mealtime more delicious, more wholesome, and simpler than ever. In her bestselling book Deceptively Delicious, Jessica Seinfeld inspired millions of parents to improve their kids' eating habits by giving everyday classics a nutritional boost with hidden vegetable purees. Now in Double Delicious!, she's turned her attention to the whole family. Here are more of her easy, imaginative recipes that use the power of purees to make everything healthier, from a hearty Turkey Meatloaf to an irresistible Tiramisu. Again, she's raised the bar nutritionally and eliminated unnecessary sugar and fat, boosted fiber and nutrients, and cut way back on sodium to bring us more healthful food with fantastic flavor. (She's even developed a Chocolate Peanut Butter Pie that nutritionist Joy Bauer loves!)
