management

Management

Taking the North-East

Atlantic Ocean as an

example of regional

practice, this book

addresses the dual

approach to ocean

governance in

international law. It

examines the

interaction between

zonal and integrated

management

File Type PDF

Law Science

Approaches and the conservation of marine living resources and marine biological diversity.

The study examines the limitations of the traditional zonal approach and suggests new possibilities for conformity between sovereign states, international law and

File Type PDF

Law Science

And Ocean

Management

Center For

Oceans Law

And Policy

Sixteen authoritative yet eminently readable chapters offer analyses of major issues in the interfaces of science, technology, and law for the oceans. This volume fills an

File Type PDF

Law Science

important gap both in the existing literature on law of the sea and in the more comprehensive field of ocean resource-use studies.

These collected essays examine different aspects of the modern law of the sea. They address many key provisions

File Type PDF

Law Science

And Ocean

Convention on the

Law of the Sea,

including its historical

development, the

substantive rules

governing navigation,

resources, the regime

of the high seas,

maritime jurisdiction,

the protection of the

marine environment

and the delimitation of

maritime boundaries,

File Type PDF

Law Science

as well as the
settlement of
disputes. The essays
also review the

Implementation
Agreement of 1994
concerning deep
seabed mining and
the Implementation
Agreement of 1995
concerning Straddling
and Highly Migratory
Fish Stocks. The
author presents

File Type PDF

Law Science

purely personal views on many negotiations and cases in which he participated. The essays, written between 1988 and 2006, will be of interest to everyone involved in the law of the sea. Davis Anderson is a former legal adviser to the Foreign and Commonwealth Office

File Type PDF

Law Science

(1960-1996) and

judge of the

International Tribunal

for the Law of the Sea

(1996-2005).

And Policy

The International

Ocean Institute -

Canada has compiled

more than 80

insightful essays on

the future of ocean

governance and

capacity

File Type PDF

Law Science

development, based largely on themes of its Training Program at Dalhousie

University in Canada, to honor the work of Elisabeth Mann Borgese (1918-2002).

Integrated Coastal and Ocean Management was conceived to address the difficult problem of

File Type PDF

Law Science

managing among
overlapping
jurisdictions,
competing coastal
and ocean uses, and
sensitive
environments.

Developed in
conjunction with the
Intergovernmental
Oceanographic
Commission,
UNESCO, and the
International Year of

File Type PDF Law Science

the Ocean, this volume is a practical guidebook for managers, policymakers, and activists who are seeking to build support for, develop, and implement functional, effective Integrated Coastal Management (ICM) programs. It is also valuable for students

File Type PDF

Law Science

who wish to understand the background and mechanics of such programs.

And Policy

This comprehensive handbook provides a global overview of ocean resources and management by focusing on critical issues relating to human development

File Type PDF

Law Science

And the marine environment, their interrelationships as expressed through the uses of the sea as a resource, and the regional expression of these themes. The underlying approach is geographical, with prominence given to the biosphere, political arrangements and regional patterns

File Type PDF

Law Science

And considered to be

especially crucial to
the human

understanding

required for the use

and management of

the world's oceans.

Part one addresses

key themes in our

knowledge of

relationships between

people and the sea on

a global scale,

including economic

File Type PDF

Law Science

And political issues,
and understanding
and managing marine
environments. Part
two provides a
systematic review of
the uses of the sea,
grouped into food,
ocean space,
materials and energy,
and the sea as an
environmental
resource. Part three
on the geography of

File Type PDF

Law Science

And sea considers
management
strategies especially
related to the state
system, and regional
management
developments in both
core economic
regions and the
developing periphery.
