This wide-ranging compendium traces symbolism to its ancient roots, examining a vast variety of symbolic images.

When the first European missionaries arrived on other continents, it was decided that the indigenous languages would be used as the means of christianization. There emerged the need to produce grammars and dictionaries of those languages. The study of this linguistic material has so far not received sufficient attention in the field of linguistic historiography. This volume is the first published collection of papers on missionary linguistics world-wide; it represents the insights of recent research, containing an introduction and papers on methodology, meta-historiography, the historical and cultural background. The book contains studies about early-modern linguistic works written in Spanish, Portuguese, English and French, describing among others indigenous languages from North America and Australia, Maya, Queschua, Xhosa, Japanese, Kapampangan, and Visaya. Topics dealt with include: innovations of individual missionaries in lexicography, grammatical analysis, phonology, morphology, or syntax; creativity in descriptive techniques; differences and/or similarities of works from different continents, and different religious backgrounds (Catholic or Protestant).

"Zarathustra" was Nietzsche's masterpiece, the first comprehensive statement of his mature philosophy, and the introduction of his influential and well-known (and misunderstood) ideas including the "overman" or "superman" and the "will to power." It is also the source of Nietzsche's famous (and much misconstrued) statement that "God is dead." This classic was due for an update and overhaul. A considerable part of Nietzsche's genius is his ability to make his language dance, and this is what becomes extraordinarily difficult to translate. Aphorist and punster Thomas Wayne puts the play back into this work.

*The treatise of Eusebius, the son of Pamphilus, against the Life of Apollonius of Tyena, written by Philostratus, occasioned by the parallel drawn by Hierocles between him and Christ" (Greek and English, vol. II, p. 484-605).

"I envy anyone who has yet to enjoy the sexy, eerie, and addictive novels of Jonathan Carroll. They are delicious treats—with devilish tricks inside them."—Michael Dirda, The Washington Post Neil Gaiman has written: "Jonathan Carroll has the magic. He'll lend you his eyes, and you'll never see the world in quite the same way ever again." Welcome to the luminous and marvelously inventive world of The Ghost in Love. A man falls in the snow, hits his head on a curb, and dies. But something strange occurs: the man doesn't die, and the ghost that's been sent to take his soul to the afterlife is flabbergasted. Going immediately to its boss, the ghost asks, what should I do now? The boss says, we don't know how this happened but we're working on it. We want you to stay with this man to help us figure out what's going on. The ghost agrees unhappily; it is a ghost, not a nursemaid. But a funny thing happens—the ghost falls madly in love with the man's girlfriend, and things naturally get complicated. Soon afterward, the man discovers he did not die when he was "supposed" to because for the first time in their history, human beings have decided to take their fates back from the gods. It's a wonderful change, but one that comes at a price. The Ghost in Love is about what happens to us when we discover that we have become the masters of our own fate. No excuses, no outside forces or gods to blame—the responsibility is all our own. It's also about love, ghosts that happen to be gourmet cooks, talking dogs, and picnicking in the rain with yourself at twenty different ages. Stephen King has said that "Jonathan Carroll is as scary as Hitchcock, when he isn't being as funny as Jim Carrey." Jonathan Lethem sees Carroll as the "master of sunlit surrealism." However one regards this beguiling original, two facts are indisputable: It's tough being a ghost on an empty stomach. And The Ghost in Love is a triumphant return.

Catalogues the heritage of images according to type and subject, from the ancient at the Monastery of Saint Catherine in the Sinai to those from Greece, Constantinople, and Russia. This book includes chapters such as role of icons in the Orthodox liturgy and on common iconic subjects, including the fathers and saints of the Eastern Church.

The celebrated chief executive officer of Chrysler Corporation offers a straightforward account of his career at Ford, of the recent resurgence of Chrysler, and of what is wrong and right with American business
