Architectural History The award-winning, landmark Menil Collection building, completed in 1987, and the Cy Twombly Gallery, completed in 1995, were both designed by architect Renzo Piano, who worked closely with Dominique de Menil to make the main building in particular seem [small on the outside but large on the inside.]

About - The Menil Collection
But when Renzo Piano made his American debut with the Menil Collection 25 years ago, the result was far from spectacle, but rather more supplementary to an already established neighborhood scale.

AD Classics: Menil Collection / Renzo Piano | ArchDaily
The surreal appearance that resulted inspired Italian architect Renzo Piano, who Dominique de Menil hired in 1981. His design for the Menil Collection, produced in association with London engineers Peter Rice and Tom Barker of Ove Arup and Partners, has been acclaimed as one of the great art museum buildings of the . twentieth century. The rigor and inventiveness with which the building was designed for the display and care of artworks make it a model art museum.

Main Building - The Menil Collection
Calling the The Menil Collection a gift to her adopted city as she cut the ceremonial ribbon when the museum building opened on June 4, 1987, Dominique de Menil acknowledged all those who had journeyed with her to the auspicious day: the generous people of Houston; her French ancestors; the family members who surrounded her, including children and grandchildren; curators, conservators, and other staff; architect Renzo Piano.

History - The Menil Collection
In 1992, Renzo Piano was commissioned by Dominique de Menil to build a small, independent pavilion dedicated to the work of Cy Twombly, Jr. in the grounds of the Menil Collection. In contrast to the Menil's main museum building and the surrounding bungalows, the Cy Twombly Gallery is built of sand-colored block concrete, is square in plan and contains nine galleries.
