Kids can make a little magic happen when they have this handy kit in hand. Inside, young magicians will find all the paraphernalia they'll need to wow an audience: a brightly colored handkerchief that can get longer...and longer...and longer, dice to use for some "mental magic," and, of course, the classic deck of cards. The manual itself contains dozens of fabulous tricks, illustrated with color photographs that children can easily follow. Every illusion is designed for an up-close--rather than big theater--performance, so youngsters can do them anywhere, anytime, without the audience ever figuring out how they work!

What is a self-working card trick? A trick that does not depend upon legerdemain or special abilities on the part of the magician, but a trick that works automatically because of the mathematics inherent in the card deck itself. Long practice and supernormal dexterity are not needed to perform these tricks, yet they are often among the most entertaining and most spectacular of all card tricks. Some of these sure-fire tricks are simple, a good place to begin. Others were specially adapted from professional routines and are here presented for the first time for amateurs. Almost all of these tricks can be worked informally, with a borrowed deck of cards. Some also adapt to stage presentation. Individual tricks in this book have sold for more than the price of the entire book. Amateurs can use them to get a start in magic and to feel, at once, the rewards of giving a professional performance.

Provides magicians of all abilities with step-by-step instructions for executing card tricks and flourishes, including making cards appear and disappear, change suit, and defy the laws of gravity.
