Labeling activities or watching lab videos. The straightforward, step-by-step lab activities provide concise background information and feature images of anatomical models and cadavers. The variety of anatomical models and cadavers reinforces what students learn from studying actual models in the lab and helps them identify and remember key anatomical structures. The lab manual incorporates the terminology and much of the artwork used in Erin Amerman's Human Anatomy & Physiology text, but can accompany any A&P textbook. The lab manual is available in three versions
