Mendeleev Periodic Table Cards; Scissors; Procedure. Cut out the element cards – there are 34 total cards that represent the main block elements (Groups 1, 2, 13-18) in the first five periods. Arrange the cards that include the element's name as they are arranged on the Periodic Table. There will be 10 blank spaces when you have completed this step. You may refer to the Periodic Table below to help with this task.

~~Classroom Resources | Mendeleev's Periodic Table | AACT~~

There are a total of 7 groups in the periodic table and each vary in how many elements they contain. Period 1 only has two elements, Hydrogen and Helium. Period 2 has eight elements whereas group 6 has the most with the addition of the top section of the block of elements on the bottom of the table called lanthanides.
