Feel Think and Do is an excellent resource to enable children to explore Protective Behaviours concepts in an accessible and enjoyable way. The book provides a good narrative for teachers to use to discuss the important relationship between feelings, thoughts and behaviours.

Protective Behaviours Resources

My network hand is an activity that will help children to identify a support system that they can use if they need help. It requires them to identify "network people" such as parents or guardians, family members, teachers, and so on. The network people should be adults they trust and who listen to them.

Resources - Protective Behaviours ACT

The Protective Behaviours program teaches and promotes concepts of emotional intelligence, empowerment, assertiveness, problem-solving and an understanding of safety. In teaching these concepts and strategies, Protective Behaviours aims to prevent abuse, increase safety, and reduce violence.

This programme aims to provide children aged 4-7 years with awareness and strategies for keeping safe. Although it may be difficult to accept, children and young people from any community, including those with disabilities, can be put at risk of harm, abused or hurt, regardless of their age, gender, religion or ethnicity. All children have the right to be safeguarded from abuse or neglect so they have the opportunity to reach their potential and be successful adults. Protective behaviours teaches children to develop an awareness of personal safety; helps them to identify and express their feelings; make choices and solve problems. First Steps to Safety has taken the core protective behaviour principles and created a teaching framework with overarching aims, with supporting lesson plans, resources and activities, in a 10 week programme that can be picked up and used by anyone in school wanting to empower children and young people of any age and any capability to develop personal safety. The information and strategies provided to children are generic and applicable across a range of situations that may arise, for example bullying, internet safety, being harmed, feeling sad or feeling unsafe. Sessions include: my body parts;

showing my feelings; my body, thoughts and feelings all go together; feeling safe; behaviour choices; to empower children to feel safe and know they have a right to feel safe; to give children the confidence and ability to assertively manage their own safety; to children the skills to take responsibility for their own bodies, thoughts, feelings and behaviour; to enable children with a range of communication abilities to ask for help; for children to have awareness of their body, thoughts, feelings and behaviour; have a vocabulary to express how their thoughts and feelings affect their bodies; know the early warning signs for feeling unsafe; know they can make different behaviour choices based on feelings; and know who good people are to go to for help and how to ask for help.

A comprehensive resource that provides practical plans for primary school teachers and other service providers who are implementing the Protective Behaviours Program with children aged 4-12 years.

Protective Behaviours is a practical resource that has evolved from the tried and tested ideas and experience of a group of teachers. The book contains whole-lesson plans and lists of activity suggestions which can be adapted to suit children's ages and needs, and are intended as a reference for using the Protective Behaviours process. It will help children to:

- Make safer choices
- Stand up to bullying behaviours
- Deal with transition and change
- Cope with divorce, loss and separation
- Develop a vocabulary of feelings.

The activities are linked to different themes and coded to suggest suitable age groups and group sizes. The book includes a brief explanation of the Protective Behaviours process.

For effective use, this book should be purchased alongside the storybook - *Something Has Happened: A Storybook*. This programme of activities, created to be used alongside the storybook, *Something Has Happened*, has been designed to help children develop their own internal measure of safety, and teaches them how to ask for help if they feel unsafe. The sessions and activities in this book directly correlate to episodes in the storybook *Something Has Happened*, covering the fundamental aspects of safeguarding as well as elements of the Protective Behaviours (PB) process. Taking adults and children through a wide range of discussion points and activities, all underpinned by clear guidance, it acts as a starting point to help children understand that being safe from harm is the most important right they have and that the trusted adults around them will always take action to believe and protect them. Key features of this resource include:

- Session plans that directly link to events in the *Something Has Happened* storybook
- Clear, detailed and accessible activity plans that can be used with whole classes, small groups or with individual children
- Photocopiable activity sheets
- With a concise and accessible introduction to the right to feel safe and Protective Behaviours, this is an invaluable resource for teachers, support staff and other professionals working with both primary and lower-secondary aged children.

Discusses the difference between secrets that are fun to keep and those that make people unhappy, and encourages youngsters to confide in their parents or another trusted adult such painful matters as bullying or improper touching.

For effective use, this book should be purchased alongside the guidebook- *Guide for Safeguarding and Supporting Children's Right to Feel Safe*. *Something has happened to Joe*. Now he doesn't feel safe; he feels sick, wants to cry and can't even concentrate on his computer games. This carefully and sensitively written storybook has been created to enable conversations around safeguarding, teaching children about their right to feel safe, and what to do if, like Joe, they ever need help. With colourful and engaging illustrations, the story offers opportunities for discussion throughout, using Joe as a tool to help children understand their difficult feelings, who they can go to for help, and what they can do when it feels like nobody is listening. This storybook:

- Teaches children about the right to feel safe, the safety continuum, networks of support and persistence
- Offers advice that can be used by children in any situation, from disclosing abuse to talking about smaller worries
- Can be used with both primary and lower-secondary aged pupils as a whole class, in small groups or in one-to-one sessions

Designed to be used alongside the professional guidebook, *A Practical Resource for Supporting Children's Right to Feel Safe*, this is an essential tool for teachers, support staff and other professionals who want to teach children that being safe from harm is the most important right they have, and that the trusted adults around them will always take action to believe and protect them.

A book about a child who has an adult friend who makes her feel a bit too special. His touching makes her frightened and confused. It is only when she has the courage to tell someone that her heart begins to heal. This beautifully illustrated book encourages and empowers children to speak up if someone is touching them in a way that makes them uncomfortable. Based on personal experience, Hunter's book is a vitally important resource for anyone who has children in their care, including parents, teachers, counsellors, libraries and schools.
