We draw a rectangle, cut off the lower part (about a quarter) and denote the oblique line along which we will then stretch the body. We draw a windshield. In the upper part of the figure, we indicate a hood and a cabin with a pencil. We turn to the door and mirrors. Carefully draw the grille.

The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more.

The photos in this edition are black and white. Skylarks, GSXs, Grand Nationals, Rivas, Gran Sports; the list of formidable performance Buicks is impressive. From the torque monsters of the 1960s to the high-flying Turbo models of the '80s, Buicks have a unique place in performance history. During the 1960s, when word of the mountains of torque supplied by the big-inch Buicks hit the street, nobody wanted to mess with them. Later, big-inch Buicks and the Hemi Chryslers went at it hammer and tongs in stock drag shootouts and in the pages of the popular musclecar magazines of the day. The wars between the Turbo Buicks and Mustang GTs in the 1980s were also legendary, as both cars responded so well to modifications. "How to Build Max-Performance Buick Engines" is the first performance engine book ever published on the Buick family of engines. This book covers everything from the Nailheads of the '50s and early '60s, to the later evolutions of the Buick V-8 through the '60s and '70s, through to the turbo V-6 models of the '70s and '80s. Veteran magazine writer and Buick owner Jefferson Bryant supplies the most up-to-date information on heads, blocks, cams, rotating assemblies, interchangeability, and oiling-system improvements and modifications, along with details on the best performance options available, avenues for aftermarket support, and so much more. Finally, the Buick camp gets the information they have been waiting for, and it's all right here in "How to Build Max-Performance Buick Engines."

Nova's light weight and available eight-cylinder engines made the SS a favorite choice for street and strip across the country. The unplanned yet impressive rise of the Chevy II to musclecar fame is chronicled in this detailed and fascinating history, with a focus on the V-8 performance era of the coveted Nova SS models, including the potent SS350, awe-inspiring SS396, and the deadly Yenko Deuce. Statham's fascinating text is as fresh and inviting as a 396 hitting the streets on a Saturday night!

The powerful soul-winner and founder of the Salvation Army, William Booth, was once asked, "Do you think you have the best training program to teach people how to witness for Jesus Christ and win souls to Jesus?" William Booth replied, "No, I don't think my methods are the best methods. I think the best method of giving people a burden for lost souls would be to take them to the devil's hell and allow them to experience what it is to be lost in hell, separated from God for an eternity in the fire that could never be quenched. Then I believe men would truly have a burden and know what it is to be soul-winners because they would see what it is to be lost." The purpose of this book is to give people that experience. Time is getting short for the church to do what the Lord has called us to do. It's time for the Church to realize that Hell is real and eternal for those we do not reach. It's time the church quit playing games. Though The Church that has been purchased by the blood of Christ can never experience Hell in its fullness, it is imperative that the church be able to see and feel the eternalness of the torments of Hell. That we wake up, "Be Revived," and get busy about the Father's work. Luke sixteen tells us of activities that are now taking place in Hell, activities that need to be taking place in our churches. Please, allow your church and yourself to "Go To Hell" so that those who the Lord and you love will never have to go to Hell.
