transformed us more thoroughly than in any period--Publisher's description.

THE AGE OF EXTREMES is eminent historian Eric Hobsbawm's personal vision of the twentieth century. Remarkable in its scope, and breathtaking in its depth of knowledge, this immensely rewarding book reviews the uniquely destructive and creative nature of the troubled twentieth century and makes challenging predictions for the future.

An overview of the history of the twentieth century reviews the legacy of two world wars,

This book provides a history of political ideologies during the period famously described by Eric Hobsbawm as "The Age of Extremes" -- from the First World War to the collapse of the Soviet Union. Ideologies in the Age of Extremes introduces the key ideologies of the age; liberalism, conservatism, communism, and fascism. Willie Thompson identifies the political influence of mass movements as a key feature. He uses a powerful approach that considers the different ideologies in relation to each other. This allows him to show that they

Download File PDF The Age Of Extremes A History World 1914 1991 Eric J Hobsbawm

often emerged from a common root or merged into a common future, stealing each other's clothes and reinventing themselves as the stark opposite of a competing ideology. This sophisticated yet accessible analysis will be of great interest to students of 20th century history and political theory.

How our shifting sense of "what's normal" defines the character of democracy" A provocative examination of social constructs and those who would alternately undo or

improve them."—Kirkus Reviews
This sharp and engaging collection of essays by leading governmental scholar Cass R. Sunstein examines shifting understandings of what's normal, and how those shifts account for the feminist movement, the civil rights movement, the rise of Adolf Hitler, the founding itself, the rise of gun rights, the response to COVID-19, and changing understandings of liberty. Prevailing norms include the principle of equal dignity, the idea of not treating the press as an enemy of the people, and the social unacceptability of open expressions of racial discrimination. But

Download File PDF The Age Of Extremes A History World 1914 1991 Eric J Hobsbawm

norms are very different from laws. They arise and change in response to individual and collective action. Exploring Nazism, #MeToo, the work of Alexander Hamilton and James Madison, constitutional amendments, pandemics, and the influence of Ayn Rand, Sunstein reveals how norms ultimately determine the shape of government in the United States, Europe, and elsewhere.

Examining the writings of twentieth-century thinkers such as Raymond Aron, Isaiah Berlin, Norberto Bobbio, Michael Oakeshott, and Adam Michnik, *Faces of Moderation* argues that

moderation remains crucial for today's encounters with new forms of extremism.

In the first comprehensive history of Himalayan mountaineering in 50 years, the authors offer detailed, original accounts of the most significant climbs since the 1890s, and they compellingly evoke the social and cultural worlds that gave rise to those expeditions.
