Siege warfare was a common feature of medieval conflict. In the great siege of Dover Castle in 1216, the castle held firm for four months against French forces, hoping to secure it for Prince Louis of France, who had invaded England at the invitation of King John 's rebellious barons © Historic England (illustration by Peter Dunn)

Medieval Warfare | English Heritage

How and why this happened is the theme of Bert Hall's Weapons and Warfare in Renaissance Europe. This study represents not only good military history, it is also good history of technology. Hall shows us how improved technology does not necessarily have to drive immediate change and that those changes that do occur may be less dramatic and more nuanced than we have thought.

Weapons and Warfare in Renaissance Europe.—Free Online ...

In the medieval times, instead of the guns and the other fire arms we use today, soldiers and knights used sharp, or pointed, weapons, like swords, battle axes, lances, bows, and many other weapons.
