Author Ellen Treseder Sexauer, Rice's granddaughter, presents a synthesis of scholarly and uniquely personal perspectives, examining the artist's development, artistic methods, and private life. Insightful passages from interviews with Roberta Rice Treseder, Rice's daughter, and illuminating excerpts from Rice's own published articles and books provide an intimate portrait of Rice as artist, naturalist, teacher, writer, and father.

William Seltzer Rice (American, 1873–1963) was a young artist of twenty-seven when he stepped off a train in Stockton, California, in 1900; he had left his home in Pennsylvania to take the job of assistant art supervisor for the Stockton public schools. California became not only his lifelong home but also his muse, inspiring a prolific career in art. Rice soon moved to the San Francisco Bay Area, where the region's Arts and Crafts movement was flowering. He was talented in several mediums, but block printing ultimately became his favorite, for it gave him the opportunity to combine draftsmanship, carving, and printing. California's flora, fauna, and landscapes—from the Sierra Nevada to the Pacific—were the subjects that fed his creativity. William S. Rice: California Block Prints is the first book published on the artist's work and presents more than sixty of his color block prints dating from 1910 to 1935. Among the prints featured are scenes from Yosemite, Mt. Shasta, Monterey, Carmel, the San Francisco Bay Area, Lake Tahoe, and other California landmarks. An essay by Roberta Rice Treseder, Rice's daughter, recounts his life and achievements, with special emphasis on his block printing methods and materials. William S. Rice's works are in many private and public collections, including the Smithsonian American Art Museum, the Oakland Museum of California, the Achenbach Foundation for Graphic Arts, the New York Public Library, and the Worcester Art Museum.

"Block Prints: How to Make Them is an illustrated guide written by William S. Rice. It fully details his artistic process, providing straightforward, step-by-

step solutions to the intricate challenges of block printmaking in both advanced and home-studio settings. It was originally published in 1941. This 2019 edition is updated with an introduction and annotation by Martin Krause"--

When civil rights leader Hosea Lorenzo Williams died in 2000, U.S. Congressman John Lewis said of him, "Hosea Williams must be looked upon as one of the founding fathers of the new America. Through his actions, he helped liberate all of us." In this first comprehensive biography of Williams, Rolundus Rice demonstrates the truth in Lewis's words and argues that Williams's activism in the Southern Christian Leadership Conference (SCLC) was of central importance to the success of the larger civil rights movement. Rice traces Williams's journey from a local activist in Georgia to a national leader and one of Martin Luther King Jr.'s chief lieutenants. He helped plan the Selma-to-Montgomery march and walked shoulder-to-shoulder with Lewis across the Edmund Pettus Bridge on "Bloody Sunday." Williams played the role of enforcer in SCLC, always ready to deploy what he called his "arsenal of agitation." While his hard-charging tactics may have seemed out of step with the more diplomatic approach of other SCLC leaders, Rice suggests that it was precisely this contrast in styles that made the organization so successful. Rice also follows Williams's career after King's assassination, as Williams moved into local Atlanta politics. While his style made him loved by some and hated by others, readers will come to appreciate the central role that Williams played in the most successful nonviolent revolution in American history. Andrew Young Jr., former SCLC executive director, U.S. Congressman, U.S. Ambassador to the United Nations, and mayor of Atlanta, provides a foreword.

Trapped in the System is a book designed to reveal the wiles of the devil that fight against the lives of believers as well as those who have not yet confessed Christ. It exposes the enemy in raw form through rape, molestation, illicit sexual relationships while in church and mental torment through strongholds that come to highjack your thinking. It reveals how the enemy uses different systems to trap you and cause you to abort your Destiny.

Highlighted by two hundred full-color photographs, a celebration of American crafts and decorative arts and the artists who create them showcases masterpieces of furniture, wood, ceramics, glass, fiber, jewelry, metal, and basketry from the past two centuries, along with a look at how craft has shaped American history, arts, vitality, and identity. 25,000 first printing.

Christopher Marley's graceful arrangements of jewel-like arthropods make converts of those who have long seen insects as creepy—these are stunning works of art. Marley's keen eye for design combines with his entomological education to produce mesmerizing, kaleidoscopic bug mandalas and striking up-close-and-personal single-insect portraits. Neither painted nor digitally enhanced, the artist's subjects appear in this book just as they would if you found one on your screen door. Each gorgeous creation is identified with its scientific and common names, and many are accompanied by concise descriptive text. In succinct essays, Marley writes about insect collecting and its benefits to the environment; he describes his creative process in choosing and arranging the creatures for optimal visual effect. After a childhood spent running from every creature that skittered about on more than four legs, Marley has devoted much of his adult life to studying bugs—with increasing fascination. He makes frequent forays to remote locations far removed from his home in Oregon, seeking out the most beautiful and exotic species on Earth.
