(E-Z Play Today). A perfect introduction to the world-famous E-Z Play Today songbook series. Includes 13 great songs: Beautiful Brown Eyes \* Down by the Riverside \* I Gave My Love a Cherry \* Kumbaya \* Londonderry Air \* When the Saints Go Marching In \* and more. Also includes Keyboard Guides and Pedal Labels.

Presents aquatic chemistry in a way that is truly useful to those with diverse backgrounds in the sciences. Major improvements to this edition include a complete rewrite of the first three background chapters making them user-friendly. There is less emphasis on mathematics and concepts are illustrated with actual examples to facilitate understanding.

If you can build websites with CSS and JavaScript, this book takes you to the next level—creating dynamic, database-driven websites with PHP and MySQL. Learn how to build a database, manage your content, and interact with users. With step-by-step tutorials, this completely revised edition gets you started with expanded coverage of the basics and takes you deeper into the world of server-side programming. The important stuff you need to know: Get up to speed quickly. Learn how to install PHP and MySQL, and get them running on both your computer and a remote server. Gain new techniques. Take advantage of the all-new chapter on integrating PHP with HTML web pages. Manage your content. Use the file system to access user data, including images and other binary files. Make it dynamic. Create pages that change with each new viewing. Build a good database. Use MySQL to store user information and other data. Keep your site working. Master the tools for fixing things that go wrong. Control operations. Create an administrative interface to oversee your site.

When it became public that Osama bin Laden's death was announced with the phrase "Geronimo, EKIA!" many Native people, including Geronimo's descendants, were insulted to discover that the name of a Native patriot was used as a code name for a world-class terrorist. Geronimo descendant Harlyn Geronimo explained, "Obviously to equate Geronimo with Osama bin Laden is an unpardonable slander of Native America and its most famous leader." The Militarization of Indian Country illuminates the historical context of these negative stereotypes, the long political and economic relationship between the military and Native America, and the environmental and social consequences. This book addresses the impact that the U.S. military has had on Native peoples, lands, and cultures. From the use of Native names to the outright poisoning of Native peoples for testing, the U.S. military's exploitation of Indian country is unparalleled and ongoing.

Each book offers an introduction to a particular digital SLR camera, then explores a number of shooting situations, recommending how to get the best possible shots, in a series where each entry includes full-color photos and tips and information not found in the user's manual.
